Ring Belt Sizer Guide

It's essential to buy the right size when you're choosing a ring: use this Ring Belt Sizer to find the right size for the your purchase.

How to measure your ring size:

1. Print this document on a sheet of A4 paper. Be sure not to use the option to fit or shrink to page, as you will need it to be the correct size.

2. Measure the outer box to ensure that it is 70 mm by 50 mm.

3. Cut the sizer out and make a slit at the top.

4. Push the end of the sizer through the slit and slip it over the finger.

5. Adjust the sizer: it should fit comfortably around the finger without being too snug.

6. Check to ensure that the sizer can be slid over the knuckle without a problem.

7. Finally, read the letter indicated by the arrow to confirm the correct size.

Some important tips:

1. Ensure that the sizer slides off and on the finger with ease.

2. Please don't pull the sizer too tightly, as this will result in an incorrect size.
